INVITATION

The Organizing Committee of the 106th International Conference of the International Association of Universities of the Third Age (AIUTA) is pleased to invite you to present a paper during this event which will take place from May 28th to 30th, 2020 at the University of Sherbrooke (Canada).

Anxious to enhance lifelong learning, we want to explore the potential of digital technology in our training courses which are aimed at seniors aged 50 and over.

What would be its innovative, judicious and informed use?

What would be the added value?

In this spirit, the theme of the international conference is as follows:

IN THE DIGITAL AGE: NETWORK, INNOVATE, LEARN

It will be divided in three parts:

1- INNOVATION

- New approaches, educational formulas and possible applications with customers aged 50 and over;
- New experiments or applied research on pedagogy, training programs for the elderly and lifelong education.

2- TECHNOLOGIES

- Sensible use of technologies in the service of training programs in AWUs or with seniors;
- Use of digital technology and technologies that promote better learning;
