PREAMBULE

SENEGAL AND UNITRA HONORED BY AIUTA FOR THE ORGANIZATION OF CIUTA DAKAR 2022

The Board of Directors of the International Association of Third Age Universities (AIUTA) designated Senegal, through UNITRA-SN, to host the holding of the 109th international conference and the Board of Directors of its organization. It is therefore a double event involving :

- A Statutory Meeting of the Board of Directors (BOD) of the AIUTA and ..
- An International Conference on Values.

The International Conference of Third Age Universities (CIUTA DAKAR 2022), organized for the first time in Africa, will be held in Dakar, at the Museum of Black Civilizations, from 24 to 26 of November 2022. It will bring together all the Universities of the 3rd Age of the World and will be a privileged moment of meetings, sharing and exchanges on the concerns of UNITRA Senegal.

The theme chosen for this conference is: **«Problems and crises of values and / or behaviors, what roles and contributions of the Universities of the Third Age for a solidary and sustainable development? «.**

This event aims in particular to share the understanding that members of UNITRA Senegal have on values, to produce a specific contribution on the theme based on our experiences, and to contribute to the scientific preparation and decision support for the development of strategic documents, in order to take into account the values in national and international policies for sustainable. development.

The success of this event depends on the meticulous and careful preparation of the global team in charge of its organization. Beyond the communication strategy that UNITRA-SN will roll out, according to a specific agenda, to promote this very high-impact event to the national, regional and international public, it is important to focus on all other aspects essential for the proper organization and management of this meeting.

This document constitutes the memory of the general preparation of **CIUTA DAKAR 2022**.

1 BACKGROUND AND RATIONALE FOR CIUTA DAKAR 2021

1-1- Background

The first University of the Third Age was created in Toulouse in 1973 by Professor Pierre VELLAS, father of François VELLAS, the current president of AIUTA. The aim was to offer to senior citizens a program of activities which would respect the conditions, needs and aspirations specific to this age of life ". The objective was to improve their living and health conditions, in order to reduce cerebral, physical and psychological aging. According to Professor VELLAS, the created U3A would be integrated into the Academic University, to avoid turning it into a ghetto for the elderly. He then founded the International Association of Universities of the Third Age (AIUTA), which is, according to him, «the ideal place for exchanges and meetings, for all those responsible for and using university institutions, thanks to the pooling of experience and research work ”.

The AIUTA of Toulouse was the “starting point of the movement to constitute the Universities of the Third Age (UTA) in France and in the world.

The International Association of Third Age Universities (AIUTA) was created in 1975, with the following goals:

- (1) the federation, throughout the world, of UTAs and Organizations joining, under other names, its objectives;
- (2) the constitution, with the support of the network of universities in the world, of an international framework for long life education and research for, by and with the elderly, all life long;
- (3) the development of knowledge transfer that the older generation carries out for the benefit of society as a whole.

Thus, the AIUTA has adopted a Charter, the most important points of which are:

- **Purpose:** The purpose of the UTAs is to transmit Knowledge and Culture within a university framework;
- **Mission:** The UTAs work for the cultural and social promotion of Seniors and their Well-being;
- **Audience:** The UTAs are opened to all Seniors regardless of age, sex, qualifications and resources;
- **Status:** UTAs guarantee the academic status of their activities by their integration or an official link with an institution of higher education ;
- **Education:** The UTAs provide Courses, Conferences, Workshops on all academic subjects taught in Universities;
- **Health:** The UTA's mission is to promote the Health of Seniors by innovating in the various forms of intellectual and sporting activities;
- **Culture :** The UTAs provide Seniors with the keys to a better understanding of the present time;
- **Ethics:** The UTA strive to reduce any discrimination related to age and gender and actively participate in the fight against exclusion.

1-2- Rationale

The beginning of the 21st century is not reassuring. The crisis of the values of civilization, because that of behaviors, threatens the very foundations of humanity, by raging everywhere in the world, reaching up to the most unexpected spheres. Hence the multiplication of initiatives from the University of the Third Age of Senegal, whose members, in accordance with their status of «Wise Men» make it their duty to converge ideas and actions, for recourse to historical legacies to be offered as a viaticum to the creativity of Youth, hope of the world.

Thus, UNITRA-SN will be in charge of the organization of two (2) important events from 24 to 26 December, 2022 in Dakar:

- The 109th meeting of the Board of Directors of the International Association of Third Age Universities (AIUTA) to be held on November 1, 2022 in Senegal, for the first time in Africa;
- The International Conference whose theme is: «Problematic of values: Crisis of values and / or behaviors, what roles and contributions of the Universities of the Third Age for a Solidary and Sustainable Development? which will follow on November 2 and 3, 2022 in Dakar.

For each of these activities, UNITRA-SN expects a high quality contribution from the world seniors.

The various contributions of the participants must be related to the following four (4) sub-themes:

- 1) African and traditional values;
- 2) Crises in values and / or behavior, what solutions for a new citizenship of the world?
- 3) What are the major universal values we share?
- 4) Which values to promote for a model citizenship for the world?

ABOUT THE CIUTA DAKAR 2022 HOST SITE BLACK CIVILIZATIONS MUSEUM

The Museum of Black Civilizations (MCN), is the site that will host all the works of the CIUTA DAKAR 2022.

«**ALL AFRICAN CULTURE IN ONE PLACE**», , this is the slogan of the Museum of Black Civilizations (MCN), which is enough to attract the organization of events of high international scope to this majestic site, especially when it comes to discussing issues of values, with citizens of the 3rd age of the world, as the CIUTA DAKAR 2022 promises.

Located in the heart of the Senegalese capital, the structure of the MCN evokes a small round hut very common in Africa, but here, built on a total area of 15,000 square meters on four levels. Its intelligent circular shape allows maximum use of sunlight. The galleries are equipped with latest generation equipment.

On the ground floor, a 150-seat auditorium has been created to house press conferences, seminars and other colloquiums.

On the third floor, there is a space called «Agora» or «Pecc», which wants to be «open to the African and friendly». It is intended to receive shows and artistic encounters. Level four serves as offices for the museum administration.

The Dakar MCN is the symbol of a common will of different countries of the African continent to unite in order to show the diversity of their cultural traditions and their contemporary artists.

The young Museum of Black Civilizations in Dakar was elected by Time magazine as one of the 100 key places to see in the world. He relies on contemporary trans-African art to highlight the pluralism of the continent.

Organizing the International Conference of Third Age Universities on this wonderful site is more than a symbol.
